

Nimrod

High Performance release agent

Nimrod is a high performance multi-application solvent with outstanding de-watering and anti-rust properties. Once applied it leaves a protective film on equipment to prevent the problem immediately recurring. Used extensively by rail maintenance teams for many trackside applications.

BENEFITS

- ◆ Low viscosity solvent with excellent 'creep' characteristics loosens the most stubborn rusted components.
- ◆ High performance de-watering additives quickly restore saturated equipment to full operation.
- ◆ Contains a moisture repellent, providing a protective film and an effective barrier against further moisture ingress and corrosion.
- ◆ Acts as a light lubricant for the freeing of door locks, hinges etc.
- ◆ Available in 480ml aerosol canister or bulk solvent.

APPLICATIONS

- ◆ Damp start for engines.
- ◆ Restoring of water-logged outdoor security lighting.
- ◆ Restoring of saturated headlamps and tail lights.
- ◆ Loosening of any rusted threaded fastener.
- ◆ Special rail applications include seized Pandrol clips (especially in tunnels).
- ◆ Fishplate bolts.
- ◆ Slide chair bolts.
- ◆ Many applications in signalling for restoring saturated electrical equipment.
