

Tool-life

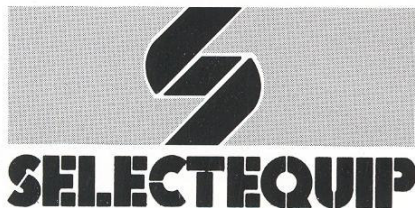

High performance Drilling and tapping fluid

A specialised blend of extreme pressure lubricants producing a highly efficient coolant which extends the life of drill bits and taps.

BENEFITS

- ◆ Tool-life is extended by up to 500% by simply spraying onto cutting tool and workpiece prior to drilling or tapping.
- ◆ Viscous formulation ensures that coolant stays where it is applied even at high speed and can be re-applied at any time without stopping the cutting operation.
- ◆ Special EP (Extreme Pressure) additives enable heavier loading and faster cutting speeds.
- ◆ High thermal capacity draws heat away from cutting area, further extending cutting life and minimising heat distortion.
- ◆ Ideal for drilling, tapping, broaching and reaming a wide variety of metals including stainless steel, cast iron, brass, aluminium, zinc and titanium.
- ◆ Special additives provide an improved surface finish, free of pitting and metal seizure.
- ◆ Available in 480ml aerosol canister.
